

**World class
beauty, quality
and colours.**

Vision

To be known as a provider of world class granites.

Mission

Sourcing the best granites and making it better
with a focus on quality, affordability
and customer satisfaction.

Core values

Integrity, Reliability, Excellence, Responsibility.

A legendary leader Shri Sidda Raghava Rao

Jyothi Granite Exports India Private Limited was established by Shri Sidda Raghava Rao. He has over 30 years experience and a sound knowledge in all aspects of the quarrying business. Hailing from a business family, Mr. Rao ventured into the quarrying business at a tender age. He started various quarries producing granites ranging from Black Galaxy, Black Pearl and Steel Grey. And during the process, he created many employment opportunities for the people around. Moreover, his business acumen and vast experience has landed him on the boards of various reputed companies.

Following the footsteps of a legendary leader

Young and dynamic Sri S V V Sudheer Kumar holds a Post Graduate Degree in Business Management from Madras University. He has been managing the day to day activities of the Jyothi Granites since 1995. He has gained in-depth knowledge and experience in the latest processes and technology by travelling to various countries across the globe. And he has played a pivotal role in transforming Jyothi Granites by introducing the latest technology, methodology and with his business acumen. This has helped us in taking our production capacities to a phenomenal level. His current focus is on the overall development of the organization.

The Lotus

Grace, beauty and prosperity

Lotus occupies a special place among India's rich flora. It is a symbol of prosperity. And it forms the most essential ingredient for our poojas, auspicious ceremonies and celebrations.

Our products are no different. They too represent beauty, grace and prosperity. Nature incubates them for years. And we excavate these stones with a judicious blend of technology and know-how to bring you granites that are exquisite in their finish and variety.

We revel in bringing you these granites. Of course, it's not easy. We have very rigorous quality checks and the latest state-of-the-art machinery to painstakingly enable this whole process. At Jyothi, we take pride in bringing you these symbols of prosperity.

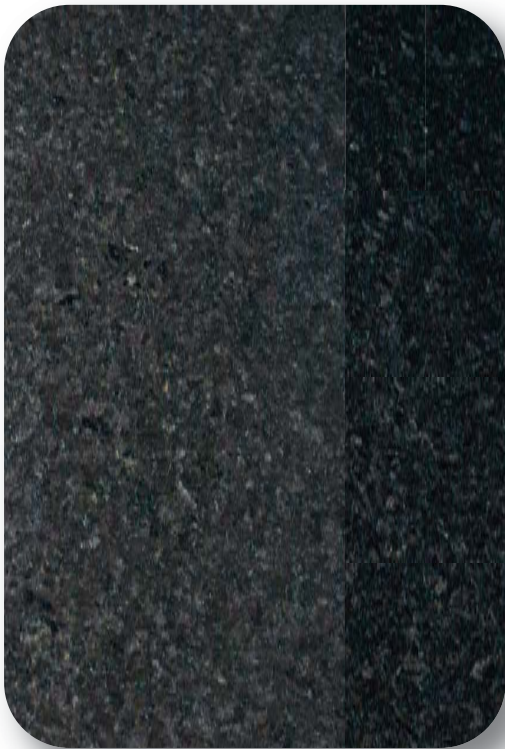

World class colours,

Jyothi Granites Exports India Private Limited owns several quarries and hence enjoy a continuous supply of quality granites. We have established our own world class processing units where we produce different varieties of granites and ensure highest quality and finish.

products and finishes

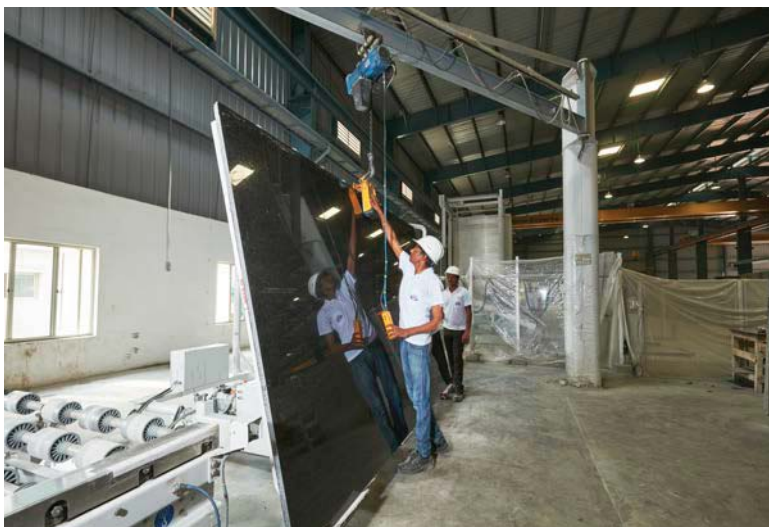

Largest producer of Black Pearl Granites

Jyothi Granite Exports India Private Limited and its group of companies are synonymous with excellence in the business of granite quarrying. In fact, we are the largest producer of Black Pearl granites in the world. For almost two decades, we have been adding beauty, grace and class to the interiors of discerning customers.

Commitment to quality

When it comes to quality, we make no compromises. We have earned a niche for our products in the market with stringent quality controls. And this zero tolerance on quality has helped us win and sustain many long-term business relationships.

Product	Name of the Quarry/Mine
Black Pearl	Sri Vishnu Granites
Black Galaxy	Golden Granites/Chandrika Granites/Sri Vasavi Granites
Steel Grey	Lakshmi Granites

Superior quality granites sourced from our own quarries

Balck Pearl, Black Galaxy and Steel Grey Granites are the flagship products of Jyothi Granite Exports India Private Limited. We have our own quarries to ensure a continuous supply of these superior quality stones. And we use the latest technology and machinery to give them an exquisite finish.

State-of-the-art processing unit

We have a state-of-the-art cutting & polishing unit at the Building Products Special Economic Zone, Ongole, Prakasam District.

Latest technology and machinery

We have imported an array of sophisticated machinery to provide superior quality products to our customers. These machines are computerized and fully automated thereby narrowing considerably the margin for error.

Dedicated staff

They are our most valuable asset. They are highly qualified and well trained to operate all the most modern machinery. In fact, we take utmost care in choosing our personnel. And they in turn, ensure precision of the highest order and add exquisite finish to our granites.

Location advantage

Our strategic position in the building products SEZ at Ongole, enables us to gain easy access to famous mines and granite quarries. Moreover, the SEZ region has an easy access to the ports (250 km to Chennai, 125 km to Krishnapuram port) and a six lane highway. These features ensure that we have an uninterrupted supply of world-class granites, at all times.
